INDEX TO VOLUMES I–VI OF

AVIATION AND AERONAUTICAL ENGINEERING

Course in Aerodynamics and Airplane Design

BY A. KLEMIN

Modern Aeronautical Laboratories, Vol. I., Aug. 1, 1916, p. 9.

Elements of Aerodynamical Theory, Vol. I., Aug. 15, Sept. 1 and 15, 1916, pp. 17, 87, 122.

Flat Plates. Simple Problems on Sustentation and Wing Resistance, Vol. I., Sept. 15, 1916, p. 122.

Comparison of Standard Wing Section, Vol. I., Oct. 1, 1916, p. 153.

Effects of Variations in Profile and Plan Form of Wing Sections, Vol. I., Oct. 15, 1916, p. 186.

Study of Pressure Distribution, Vol. I., Nov. 1, 1916, p. 217.

Biplane Combinations, Vol. I., Nov. 15, 1916, p. 254.

Triplane Combinations, Vol. I., Dec. 1, 1916, p. 291.

Resistance of Various Airplane Parts, Vol. I., Dec. 15, 1916, p. 328.

Resistance and Comparative Merits of Airplane Struts, Vol. I., Jan. 1, 1917, p. 360.

Resistance and Performance, Vol. I., Jan. 15, 1917, p. 390.

Resistance Computation. Preliminary Wing Selection, Vol. II., Feb. 1, 1917, p. 31.

Classification of Main Data for Modern Airplanes, Vol. II., Feb. 15 and March 1, 1917, pp. 91 and 139.

Estimates of Weight Distribution, Vol. II., M'ch 15, 1917, p. 178.

Engine and Radiator Data, Vol. II., Apr. 1, 1917, p. 219.

Materials in Airplane Construction, Vol. II., Apr. 15, 1917, p. 261.

Worst Dynamic Loads. Factors of Safety, Vol. II., May 1, 1917, p. 303.

Preliminary Design of Secondary Training Machines, Vol. II., May 15, 1917, p. 342.

General Principles of Chassis Design, Vol. II., June 1, 1917, p. 398.

General Principles of Body Design, Vol. II., June 15, 1917, p. 440.

Computation of Strength Members and General Layout of Body, Vol. II., July 1, 1917, p. 491.

Wing Structure Analysis for Biplanes, Vol. II., July 15, 1917, p. 559 and Vol. III., Aug. 1, 1917, p. 33.

Wing Truss Testing, Vol. VI., Apr. 1, 1919, p. 270.

Testing of Control Surfaces, Vol. VI., Apr. 15, 1919, p. 327.

Fuselage Testing, Vol. VI., May 1, 1919, p. 376.

Chassis Testing, Vol. VI., May 15, 1919, p. 430.

Full Flights Testing, Vol. VI., June 1, 1919, p. 479.

Instruments for Full Flight Testing, Vol. VI., July 1 and 15, 1919, pp. 581 and 633.

Aeronautical Engineering

Dynamic Stability of Airplanes, by J. C. Hunsaker. Vol. I., Aug. 1, 1916, p. 17.

Theory of an Airplane Encountering Gusts, by E. B. Wilson. Vol. I., Sept. 15, 1916, p. 117.

Airplane Control Surfaces, by J. C. Hunsaker and T. H. Huff. Vol. I., Oct. 1, 1916, p. 146.

Aerodynamic Properties of the Triplane, by J. C. Hunsaker and T. H. Huff. Vol. I., Nov. 1, 1916, p. 210.

Aeronautical Problems, by G. O. Squier. Vol. I., Dec. 1, 1916, p. 287.

Sand Load Test of Curtiss H-12 Seaplane, by J. H. De Kleyn and G. E. Hawthorn. Vol. II., Mar 1, 1917, p. 136.

Stresses in Built-Up Rectangular Fuselages, by A. Klemin and W. B. Ford. Vol. II., Mar. 1, 1917, p. 142.

Graphic Determination of a Strut Having Uniform Strength. Vol. II., Apr. 1, 1917, p. 214.

Six U. S. A. Aerofoils, by E. S. Gorrell and H. S. Martin. Vol. II., Apr. 15, 1917, p. 256.

Flotation of Pontoons and Determination of Pontoon Position, by E. P. Warner and G. M. Denkinger. Vol. II., June 1, 1917, p. 392.

Air Resistance of Cylinder Combinations, by T. H. Huff. Vol. II., June 1, 1917, p. 395.

Materials in Airplane Construction, by N. L. Liebermann. Vol. II., June 15, 1917, p. 436.

The Power Plant from the Consideration of Airplane Performance, by D. W. Douglas. Vol. II., July 1, 1917, p. 488.

Disturbing Bodies in Wing Surfaces, by A. Klemin. Vol. III., Aug. 1, 1917, p. 100.

Controls and Control Surfaces, by W. J. Waterhouse. Vol. III., Sept. 1, 1917, p. 160.

Comparative Tests of Wing Sections, by A. Klemin and G. M. Denkinger. Vol. III., Sept. 1, 1917, p. 164.

Strut Charts, by H. M. Buckwald. Vol. III., Oct. 1, 1917, p. 305.

Determination of the Moments of Inertia of an Airplane, by J. J. Rooney. Vol. III., Oct. 15, 1917, p. 381.

Slip Stream in Relation to Stalling Speed, by A. A. Merrill. Vol. III., Dec. 15, 1917, p. 687.

The Wind Channel, Its Design and Use, by J. R. Pannel. Vol. IV., Feb. 15 and Mar. 1, 1918, pp. 91 and 160.

The Mathematics of Aerodynamics, by E. B. Wilson. Vol. IV., Mar. 1, 1918, p. 157.

Location of Seaplane Floats, by R. N. Wing. Vol. IV., Mar. 1, 1918, p. 155.

Effect of an Airplane Rudder in Flight, by K. H. White. Vol. IV., May 1, 1918, p. 448.

Some Problems of Airplane Design, by B. R. Shaw. Vol. IV., May 15, 1918, p. 525.

Effect of Initial Stress on Redundant Truss Members, by H. T. Booth. Vol. V., Aug. 15, 1918, p. 91.

Some Outstanding Problems in Aeronautics, by W. F. Durand. Vol. V., Aug. 15 and Sept. 1, 1918, pp. 94 and 170.

Limit Performance of Airplanes, by G. de Bothezat. Vol. V., Oct. 1, 1918, p. 291.

Climb of an Airplane, by V. E. Clark. Vol. V., Oct. 1, 1918, p. 303.

Krell Manometer, by A. A. Merrill. Vol. V., Nov. 1, 1918, p. 421.

Stresses in Airplane Ribs, by I. H. Cowdrey. Vol. V., Nov. 1 and 15, 1918, p. 425.

Proper Function of the Elevator, by A. A. Merrill. Vol. V., Dec. 1, 1918, p. 564.

Boeing Aerodynamical Laboratory, by F. E. McKone. Vol. V., Dec. 15, 1918, p. 614.

Selecting Aerofoil Sections for Speed Range, by V. E. Clark. Vol. VI., Feb. 1, 1919, p. 20.

Design of Pressure Plate Anemometers, by C. H. Powell. Vol. VI., May 1, 1919, p. 374.

Chart for Performance Computations, by R. I. Elliott. Vol. VI., June 1, 1919, p. 488.

Airplane Construction and Materials

Steel Construction of Airplanes, by G. C. Loening, Vol. I., Aug. 15, 1916, p. 12.

Specification of Steel, by A. E. Berriman, Vol. I., Sept. 1, 1916, p. 86.

Heat Treatment of Steel, by J. M. Rogers. Vol. I., Jan. 1, 1917, p. 386.

Requirements of Seaplane Floats, by H. C. Richardson. Vol. I., Jan. 1, 1917, p. 387.

Airplanes for 1917. Vol. II., Feb. 1, 1917, p. 38.

Aeronautic Exposition. Vol. II., Feb. 15, 1917, p. 100.

Seaplane Float Forms, by C. G. McGregor. Vol. II., Mar. 15, 1917, p. 173.

Glue for Use on Airplanes, by P. A. Houseman. Vol II., July 1, 1917, p. 494.

Glue, by G. F. Lull. Vol. II., July 1, 1917, p. 495.

Airplane Dopes, by G. J. Esselen. Vol. II., July 15, 1917, p. 563.

Kapok and Some of its Uses, by C. Garrison. Vol. II., July 15, 1917, p. 565.

Testing Moisture Content in Lumber, by T. D. Perry. Vol. III., Aug. 1, 1917, p. 37.

Controlled Saturated Atmospheric Expansion Method of Lumber Drying, by T. D. Perry. Vol. III., Aug. 1, 1917, p. 103.

Controlled Unsaturated Atmospheric Expansion Method of Lumber Drying, by A. J. Henry. Vol. III., Aug. 15, 1917, p. 105.

Economical Arrangement of Dry Kilns, by T. D. Perry. Vol. III., Sept. 1, 1917, p. 169.

Design of Airplane Fittings, by R. F. Hall. Vol. III., Oct. 1, 1917, p. 314.

Airplane Stays, by H. A. Whitney. Vol. III., Nov. 15, 1917, p. 532.

Airplane Fittings, by J. V. Costello. Vol. III., Nov. 15, 1917, p. 533.

Use of Steel in Airplane Construction, by J. M. Rogers. Vol. III., Dec. 15, 1917, p. 680.

Government Specifications for Kiln-Drying Airplane Woods. Vol. III., Dec. 15, 1917, p. 683.

Seaplane Float Construction, by C. G. McGregor. Vol. III., Jan. 1 and 15, 1917, and Vol. IV., Feb. 1, 1917, pp. 749, 823 and 26.

Computation of Airplane Climb. Vol. III., Jan. 1, 1917, p. 755.

Technical History of the Airplane, by F. M. Green. Vol. IV., Feb. 1, 1918, p. 23.

Artificial Seasoning of Wood, by P. Groom. Vol. I., Mar. 1, 1918, p. 164.

Physical Properties of Airplane Woods, by C. H. Congdon. Vol. IV., Mar. 15, 1918, p. 223.

Organized Airplane Spruce Production, by J. F. Thorne. Vol. IV., Apr. 1, 1918, p. 289.

Use of Cork in Aeronautics, by A. K. Barnes. Vol. IV., April 15, 1918, p. 369.

Use of Jigs in Airplane Construction, by R. G. Matthews. Vol. IV., Apr. 15, 1918, p. 371.

Evolution of the Airplane, by C. G. Grey. Vol. IV., May 1 and 15, 1918, pp. 450 and 523.

Fokker Wing Truss. Vol. IV., July 15, 1918, p. 869.

Balsa Timber in Costa Rica. Vol. IV., 1918, p. 871.

Novel Ideas in Airplane Construction. Vol. IV., July 15, 1918, p. 872.

Aircraft Production in the United States. Vol. IV., Sept. 1, 1918, p. 161.

Tubes and Tubular Structures, by W. W. Hackett and A. G. Hackett. Vol. IV., Sept. 15, 1918, p. 230.

Production Problems of Aircraft Bolts, Screws, and Nuts, by W. H. Sheehan. Vol. V., ct. 15, 1918, p. 363.

Dopes, Doping and Ventilation, by F. A. Leedy. Vol. V., Nov. 15, 1918, p. 485.

Light Alloys in Aircraft Construction, by F. W. Halliwell. Vol. V., Nov. 15, 1918, p. 497.

Corrosion Prevention on Aircraft Metal Parts, by H. A. Gardner. Vol. V., Dec. 1, 1918, p. 565.

Properties of Airplane Fabrics, by E. D. Walen. Vol. V., Dec. 15, 1918, p. 621.

Design of Airplane Struts, by W. H. Barling and H. A. Webb. Vol. VI., Feb. 15, 1919, p. 79.

Present Status of Airplane Construction, by A. Klemin, Vol. VI., Mar. 1, 1919, p. 136.

Airplanes at the Aeronautical Exposition, by A. Klemin, Vol. VI., Mar. 15, 1919, p. 210.

Empire Art Metal Construction, Vol. VI., Mar. 15, 1919, p. 220.

Stewart-Hartshorn Streamline Wire, Vol. VI., Mar. 15, 1919, p. 222.

Trend of German Airplane Design, Vol. VI., Apr. 15, 1919, p. 334.

Veneer Body Construction, Vol. VI., May 15 and June 1, 1919, p.p. 434 and 485.

Test of Moisture and Water Resistant Coatings, by H. A. Gardner, Vol. VI., June 15, 1919, p. 539.

Electric Arc Welding in Aircraft Construction by R. E. Kinkead, July 15, 1919, p. 628.

Airplane and Seaplane Descriptions

Modern German Airplanes, Vol. I., Aug. 1, 1916, p. 23.

Wright L. Biplane, Vol. I., Aug. 1, 1916, p. 27.

Curtiss "Wireless" Scout, Vol. I., Aug. 15, 1916, p. 20.

German Twin-Engine Seaplane, Vol. I., Sept. 15, 1916, p. 121.

Verville Seaplane, Vol. I., Dec. 15, 1916, p. 324.

Aviatik Biplane, Vol. I., Jan. 1, 1917, p. 354.

Characteristics of American Airplanes, Vol. II., Feb. 1, 1917, p. 36.

Standard J Biplane, Vol. II., Apr. 1, 1917, p. 216.

Albatros Biplanes, Vol. II., May 15, 1917, p. 338.

Standard J. R. Biplane, Vol. III., Aug. 1, 1917, p. 28.

Handley-Page Biplane, Vol. III., Aug. 15, 1917, p. 97.

Aeromarine M. I. Biplane, Vol. III., Aug. 15, 1917, p. 102.

Witteman-Lewis TT Biplane, Vol. III., Sept. 1, 1917, p. 108.

Nieuport 1½-Plane, Vol. III., Sept. 15, 1917, p. 245.

Parl Schmitt Biplane, Vol. III., Oct. 1, 1917, p. 309.

Kyle Smith Sporting Airplane, Vol. III., Oct. 1, 1917.

Hansa-Brandenburg Biplane, Vol. III. Oct. 15 and Nov. 1, 1917, pp. 383 and 400.

Langley's Flying Machine, by C. H. Butman, Vol. III., Nov. 15, 1917, p. 527.

Friedrichshafen Bomber, Vol. III., Dec. 1, 1917, p. 608.

Austrian Seaplanes K301 and A25, Vol. III., Dec. 15, 1917, p. 682.

Lanzius Speed Scout, Vol. III., Jan. 1, 1918, p. 759.

Ago Fighter, Vol. III., Jan. 15, 1918, p. 830.

Continental Pusher, Vol. IV., Feb. 1, 1918, p. 35.

Mexican Microplano Scout, Vol. IV., Mar. 1, 1918, p. 163.

Curtiss Flying Boat Patent, Vol. IV., Mar. 15, 1918, p. 228.

Rumpler C. IV., Vol. IV., Mar. 15, 1918, p. 226.

Albatros C. V., Vol. IV., April 1, and 15, and May 1, 1918, pp. 293, 375, 457 and 527.

Sopwith Triplane Fighter, Vol. IV., May 1, 1918.

Friedrichshafen Twin Engine Bomber, Vol. IV., June 1 and 15, 1918, pp. 593 and 668.

SE-5A Fighter, Vol. IV., June 1, 1918, p. 598.

Fokker Triplane Fighter, Vol. IV., June 1, 1918, p. 606.

Lawson MT-2 Biplane, Vol. IV., June 15, 1918, p. 672.

Spad Two-Seater Fighter, Vol. IV., June 15, 1918, p. 674.

L. V. G. C. V. Fighter, Vol. IV., June 15, 1918, p. 680.

American Handley-Page, Vol. IV., July 15, 1918, p. 857.

A. E. G. Twin-Engine Bomber, Vol. IV., July 15, 1918, p. 863.

DH-4A Fighter, Vol. V., Aug. 1, 1918, p. 27.

Roland D-II Fighter, Vol. V., Aug. 1, 1918, p. 34.

Albatros D. 5 Fighter, Vol. V., Sept. 15, 1918, p. 235.

DH-5 Fighter, Vol. V., Sept. 15, 1918, p. 228.

Fokker D.-7 Fighter, Vol. V., Sept. 15, 1918, p. 236.

Zeppelin Giant Airplane, Vol. V., Oct. 1 and 15, 1918, pp. 298 and 365.

Sopwith Camel, Vol. V., Oct. 15, 1918, p. 361.

A. E. G. Armored Trench Fighter, Vol. V., Oct. 15, 1918, p. 367.

French A. R. Fighter, Vol. V., Nov. 1, 1918, p. 423.

Rumpler C. V. Fighter, Vol. V., Nov. 15, 1918, p. 487.

Breguet B-14 Fighter, Vol. V., Dec. 15, 1918, p. 616.

NC-1 Seaplane, Vol. V., Jan. 1, 1919, p. 699.

Standard Mailplane, Vol. V., Jan. 1, 1919, p. 703.

Loening Monoplane, Vol. V., Jan. 15, 1919, p. 759.

Aeromarine Flying Boat, Vol. VI., Feb. 1, 1919, p. 34.

Fokker-Junkers Armored Fighter, Vol. VI., Feb. 1, 1919, p. 36.

Curtiss 18-2 Triplane, Vol. VI., Feb. 15, 1919, p. 74.

USD-9A Fighter, Vol. VI., Mar. 15, 1919, p. 215.

Ansaldo Single and Two-Seater Fighters, Vol. VI., Mar. 15, 1919, p. 223.

Gallaudet D-4 Bomber, Vol. VI., Mar. 15, 1919, p. 233.

Thomas Single and Two Seater Biplanes, Vol. VI., Apr. 1, 1919, p. 278.

Farman F-50 Airplane, Vol. VI., Apr. 1, 1919, p. 287.

Salmson Type 2 Fighter, Vol. VI., Apr. 1, 1919, p. 287.

Caproni E-3 Bomber, Vol. VI., Apr. 15, 1919, p. 322.

Bellanca CE Sport Biplane, Vol. VI., Apr. 15, 1919, p. 332.

Halberstadt Fighter, Vol. VI., May 1, 1919, p. 384.

Lepère Fighter, Vol. VI., May 15, 1919, p. 426.

Curtiss Oriole, Vol. VI., May 15, 1919, p. 437.

Farman Goliath, Vol. VI., May 15, 1919, p. 437.

Development of the NC Seaplanes, Vol. VI., June 1, 1919, p. 468.

Vickers Vimy-Rolls, Vol. VI., July 1, 1919, p. 580.

Fiat BR Bomber, Vol. VI., July 15, 1919, p. 628.

Giant D.F.W. Biplane, Vol. VI., July 15, 1919, p. 632.

Bristol Triplane Braemer, Vol. VI., July 15, 1919, p. 639.

Aircraft Engines

Renault 220 hp., Vol. I., Aug. 1, 1916, p. 21.

Hall-Scott A-7a, 90 hp., Vol. I., Aug. 15, 1916, p. 21.

Mercedes 160 hp., Vol. I., Sept. 1, 1916, p. 83.

Duesenberg 300 hp., Vol. I., Sept. 15, 1916, p. 119.

Wisconsin 6 and 12 cyl., Vol. I., Oct. 1, 1916, p. 148.

Curtiss 250 hp., Vol. I., Oct. 15, 1916, p. 183.

Sturtevant 140 hp., Vol. I., Nov. 15, 1916, p. 252.

Trend of Design in Foreign Aeronautical Engines, by F. H. Trego, Vol. II., Feb. 1, 1917, p. 28.

Characteristics of American Aircraft Engines, Vol. II., Feb. 1, 1917, pp. 37 and 44.

Thomas 150 hp., Vol. II., Feb. 15, 1917, p. 89.

G. V. C. Gnome, Vol. II., Mar. 15, 1917, p. 175.

Data for American Engines, Vol. II., Apr. 1, 1917, p. 220.

Duesenberg 125 hp., Vol. II., May 1, 1917, p. 310.

Knox 300 hp., Vol. II., May 15, 1917, p. 349.

Spark Gaps in Series with Spark Plugs, by M. R. Machol, Vol. II., July 1, 1917, p. 498.

Union 120 hp., Vol. II., July 1, 1917, p. 490.

Cleveland Aero, Vol. II., July 15, 1917, p. 572.

Sunbeam-Coatalen, Vol. III., Aug. 1, 1917, p. 32.

Aviation Engines with Particular Reference to Benz and Mercedes Types, by E. H. Sherbondy, Vol. III., Sept. 1, 1917, p. 165.

Mercedes 260 hp., Vol. III., Sept. 15, 1917, p. 238.

Means for obtaining High Volumetric Efficiency for Aviation Engines, Vol. III., Oct. 15, 1917, p. 379.

Formulas for Approximating Calculation of Brake Horsepower of Airplane Engines, by A. Black, Vol. III., Oct. 15, 1917, p. 382.

Mercedes and Benz 160 hp. Engines Compared, Vol. III., Dec. 1, 1917, p. 610.

Radiators for Airplane Engines, Vol. III., Dec. 15, 1917, p. 686.

Development and Progress of Aviation Engines, by H. Souther, Vol. III., Jan. 15, 1918, p. 833.

Cleveland Aero Engine, Vol. IV., Feb. 15, 1918, p. 105.

Fan Dynamometer, Vol. IV., Mar. 1, 1918, p. 168.

Application of Die Castings in Aircraft, Vol. IV., Apr. 1, 1918, p. 289.

Internal Combustion Turbine, Vol. IV., May 15, 1918, p. 529.

Electric Dynamometer, by C. F. Scott, Vol. IV., June 1, 1918, p. 596.

Official Description of the Liberty Engine, Vol. IV., June 1, 1918, p. 603.

Evolution of the Airplane Engine, Vol. IV., June 15, 1918, p. 667.

Mercedes 8-cyl. 240 hp., Vol. IV., June 15, 1918, p. 678.

Hall-Scott 200 hp., Vol. IV., July 1, 1918, p. 787.

Mercedes 180 hp., Vol. V., Aug. 15, 1918, p. 98.

Duesenberg Engine Test House, Vol. V., Oct. 15, 1918, p. 371.

Maybach 300 hp., Vol. V., Oct. 15, Nov. 1 and 15, 1918, pp. 357, 429 and 494.

Hispano-Suiza I., Vol. V., Dec. 1, 1918, p. 549.

Statax Rotary, Vol. V., Dec. 1, 1918, p. 566.

Aeromarine 130 hp., Vol. V., Dec. 15, 1918, p. 619.

Curtiss K-12 400 hp., Vol. V., Jan. 1, 1919, p. 685.

Hispano-Suiza H 300 hp., Vol. VI., Feb. 1, 1919, p. 23.

Miller 125 hp., Vol. VI., Feb. 1, 1919, p. 30.

Le Rhone 80 hp., Vol. VI., Feb. 15, 1919, p. 70.

Curtiss K-6 150 hp., Vol. VI., Feb. 15, 1919, p. 83.

Lawrance 60 hp., Vol. VI., Mar. 1, 1919, p. 141.

Packard 160 hp., Vol. VI., Mar. 1, 1919, p. 146.

Murray-Willat Valveless, Vol. VI., Mar. 1, 1919, p. 150.

Characteristics of American Aircraft Engines, Vol. VI., Mar. 15, 1919, p. 218.

Union 125 hp., Vol. VI., Mar. 15, 1919, p. 230.

Hudson 120 hp., Vol. VI., Mar. 15, 1919, p. 232.

King 550 hp., Vol. VI., Apr. 1, 1919, p. 274.

Limiting Power of a Single Engine, by E. P. Warner, Vol. VI., Apr. 1, 1919, p. 277.

Marlin-Rockwell, Vol. VI., May 15, 1919, p. 436.

Airplane Engine Crankshaft Design, by G. D. Angle, Vol. VI., June 15, 1919, p. 525.

Value of Supercharging, Vol. VI., July 1, 1919, p. 577.

Propeller Theory and Construction

Stresses in Propellers Due to Gyroscopic Action, by A. Klemin and E. P. Warner, Vol. I., Oct. 1, 1916, p. 150.

Construction of Airplane Propellers, by F. W. Caldwell, Vol. II., May 1, 1917, p. 300.

Tests on a Series of Propeller Blade Elements, by A. Klemin, Vol. II., July 15, 1917, p. 557.

Method of Approximating Static Thrust of Propellers, by F. W. Caldwell, Vol. II., July 15, 1917, p. 558.

Logarithmic Diagram for Selecting Propellers, by G. Eiffel, Vol. III., Aug. 15, 1917, p. 94.

Vibrations of a Rotating Airscrew and its Shaft, by A. Fage, Vol. III., Sept. 15, 1917, p. 242.

Shaping of Airplane Propellers, by F. W. Caldwell, Vol. III., Oct. 1, 1917, p. 308.

Simplified Method of Propeller Calculation, Vol. III., Oct. 1, 1917, p. 315.

Whirling Table and Method of Testing Model Airscrews at the National Physical Laboratory, by A. Fage, Vol. III., Nov. 1, 1917, p. 455.

Finishing Up and Balancing Airplane Propellers, by F. W. Caldwell, Vol. III., Nov. 1, 1917, p. 463.

Airscrew Analysis, by A. F. Zahm, Vol. III., Dec. 15, 1917, p. 601.

Design of Air Turbines, by A. Klemin and E. P. Warner, Vol. IV., Feb. 1, 1918, p. 19.

Approximating Static Thrust and Brake Horsepower of Air Propellers, by W. B. Murphy, Vol. IV., Feb. 15, 1918, p. 89.

Airplane Propeller Turning Lathe, Vol. IV., Feb. 15, 1918, p. 104.

Efficiency Variation in Airscrews, by M. A. S. Riach, Vol. IV., Apr. 1, 1918, p. 300.

Gallaudet Airscrew Propulsion, Vol. IV., May 1, 1918, p. 454.

Theory of the Airscrew, by G. de Bothezat, Vol. IV., May 15, 1918, p. 519.

Air Propulsion, by M. Brooks, Vol. IV., June 1, 1918, p. 591.

Conventional Propeller Calculations, by F. W. Caldwell, Vol. V., Aug. 1, 1918, p. 21.

Formula for Approximating Propeller Diameter, by E. P. Warner, Vol. VI., Feb. 15, 1919, p. 84.

Airplane Propeller Wastage Reduced, by R. Thelen, Vol. VI., May 1, 1919, p. 373.

General Summary of the de Bothezat Blade Screw Theory, by G. de Bothezat, Vol. VI., June 15, 1919, p. 520.

Moisture Proofing Airplane Propellers with Aluminum Leaf, by M. E. Dunlap, Vol. VI., July 15, 1919, p. 636.

Equipment and Instruments

General Specifications for Aeronautical Instruments, Vol. I., Aug. 15, 1916, p. 15.

Shock Absorbers of Rubber, by J. C. Hunsaker, Vol. I., Sept. 1, 1916, p. 78.

Instrument Illumination, by A. G. Hamlin, Vol. I., Oct. 1, 1916, p. 152.

Tests on Air Speed Meters, by S. J. Zeigler, Vol. I., Nov. 15, 1916, p. 248.

Turnbuckles for Aircraft, by A. Orr, Vol. I., Dec. 1, 1916, p. 282.

Pitot Tube, by W. H. Herschel, Vol. I., Jan. 1, 1917, p. 384.

Macy Stabilizer, by W. B. Ford, Vol. I., Jan. 1, 1917, p. 389.

Airplane Accessories for 1917, Vol. II., Feb. 1, 1917, p. 48.

Venturi Tube, by W. H. Herschel, Vol. II., Feb. 15, 1917, p. 86.

Application of Ball Bearings to the Airplane, Vol. II., Mar. 1, 1917, p. 134.

Accuracy of Modern Tachometers, by H. N. Carlson, Vol. II., May 1, 1917, p. 302.

Bureau of Standards Test on Ackerman Wheels, Vol. III., Aug. 1, 1917, p. 39.

Blower for Ballonets, Vol. II., Sept. 1, 1917, p. 168.

Sylphon Motor Thermostat, Vol. III., Sept. 15, 1917, p. 248.

Portable Standard Steel Hangars, Vol. III., Oct. 15, 1917, p. 398.

Standards of Construction, Fire Hazard and Fire Protection, Vol. IV., Feb. 15, 1918, p. 103.

Exhaust Headers and Mufflers for Airplane Engines, by A. Black, Vol. IV., July 1, 1918, p. 750.

Aircraft Instruments for "Blind Flying," Vol. VI., Feb. 1, 1919, p. 22.

Bijur Airplane Starter, Vol. VI., Feb. 1, 1919, p. 33.

Standardized Magnetos for Aircraft Engines, Vol. VI., Feb. 1, 1919, p. 38.

Liberty Aircraft Engine Ignition, Vol. VI., Mar. 1, 1919.

Douglas Automatic Ignition Interrupter, Vol. VI., Mar. 1, 1919, p. 156.

Leak and Explosion Proof Gasoline Tank, Vol. VI., Mar. 1, 1919, p. 160.

Liberty Starter for Aircraft Engines, Vol. VI., Mar. 15, 1919, p. 221.

Inter-Communication on Board Airplanes, Vol. VI., Mar. 15, 1919, p. 228.

Pentz Compass, Vol. VI., Mar. 15, 1919, p. 233.

Edstrom Wire Wrapping Machine, Vol. VI., Apr. 1, 1919, p. 280.

Turbo Compressor, Vol. VI., May 1, 1919, p. 375.

Pilot Motor Variable Pitch Propeller, Vol. VI., May 1, 1919, p. 380.

Sturtevant Supercharging Device, Vol. VI., May 15, 1919, p. 425.

Aircraft Radio Transmitter, Vol. VI., June 1, 1919, p. 476.

Wireless Telegraphy Applied to Aviation, by W. Knight, Vol. VI., July 1, 1919, p. 572.

Desirable Developments, Vol. VI., July 1, 1919, p. 594.

Ventilated Spark Plug, Vol. VI., July 15, 1919, p. 627.

Altitude Errors in Aerial Navigation, by J. G. Coffin, Vol. VI., July 15, 1919, p. 624.

Lighter-Than-Air Craft

Development of the Zeppelin Airship, by Count von Zeppelin, Vol. I., Oct. 15, 1916, p. 181.

Navy Airship DN-1, Vol. I., Dec. 1, 1916, p. 286.

Construction of Kite Balloons, by R. H. Upson, Vol. I., Dec. 1, 1916, p. 289.

Possible Improvements in Rigid Airships, by C. Dornier, Vol. I., Dec. 15, 1916, p. 319.

Specifications for Navy Blimps, Vol. II., Mar. 1, 1917, p. 148.

Inflation and Manipulation of Airships, by C. F. Smyth, Vol. II., Mar. 15, 1917, p. 177.

Airship Hulls, Vol. II., June 1, 1917, p. 394.

Forlanini Airships of the Società Leonardo da Vinci, Vol. III., Aug. 1, 1917, p. 24.

Airship Suspension Systems, by Effingham, Vol. III., Aug. 15, 1917, p. 106.

The Modern Zeppelin Airship, by L. d'Orcy, Vol. III., Dec. 15, 1917, p. 675.

The Clément-Bayard Rigid Airship Patent, Vol. IV., July 1, 1918, p. 789.

Determination of Permeability in Balloon Fabrics, by J. D. Edwards, Vol. V., Aug. 1 and 15, 1918, pp. 30 and 103.

Future of the Helium Airship, by L. d'Orcy, Vol. V., Jan. 1, 1919, p. 695.

The Case for the Airship, by W. L. Marsh, Vol. V., Jan. 1, 1919, p. 697.

British Airship Development and Operations, Vol. V., Jan. 15, 1919, p. 758.

Goodyear Airship, BF Type, by H. T. Kraft, Vol. VI., Mar. 1, 1919, p. 159.

Development of the American Airship Industry, by L. d'Orcy, Vol. VI., Mar. 15, 1919, p. 226.

Significance of Oxygen in Balloon Gas, by J. D. Edwards and P. G. Ledig, Vol. VI., Apr. 15, 1919, p. 325.

Tailoring of Airship Envelopes, by R. H. Upson, Vol. VI., June 1, 1919, p. 487.

Naval Airship C-5 Makes 1100-Mile Flight, Vol. VI., June 1, 1919, p. 475.

Lighter-than-Air Craft, by T. R. Cave-Browne-Cave, Vol. VI., June 15 and July 1, 1919, pp. 533 and 585.

Notes on Balloon Fabrics, by J. D. Edwards, Vol. VI., July 15, 1919, p. 626.

British Airship R-34 Described, Vol. VI., July 15, 1919, p. 629.

Military and Naval Aviation

Military Airplanes, Vol. I., Sept. 15, 1916, p. 112.

Organization of the Aviation Section, Vol. I., Oct. 15, 1916, p. 178.

Specifications for Army Hydro-Airplanes, Vol. I., Nov. 1, 1916, p. 223.

Time Controlled Aerial Torpedo, by W. G. Moore, Vol. I., Dec. 15, 1916, p. 322.

Progress of the Aviation Section, Vol. II., Feb. 1, 1917, p. 30.

America's Aerial Needs and Possibilities, by C. D. Walcott, Vol. II., Apr. 1, 1917, p. 223.

Army Specifications No. 1003, Vol. II., June 1, 1917, p. 405.

Aircraft Bombs, by J. Lauvergne, Vol. III., Jan. 1, 1917, p. 757.

Theory of Bomb Dropping, by E. Hemkel, Vol. III., Jan. 15, 1917, p. 819.

German Technique in Aerial Armament, by J. A. Lefranc, Vol. IV., Feb. 1, 1918, p. 95.

Reorganization of the Army Air Service, Vol. IV., May 1, 1918, p. 445.

Importance of Numbers in Warfare, by J. G. Coffin and H. T. Booth, Vol. IV., June 15, 1918, p. 665.

Development of Naval Aeronautics, Vol. V., Nov. 1, 1918, p. 434.

Personnel of the U. S. Air Services, Vol. V., Dec. 15, 1918, p. 628.

Naval Aircraft Factory, Vol. VI., Feb. 1, 1919, p. 28.

Navy Seaplane Specifications, Vol. VI., Feb. 15, 1919, p. 73.

New Navy General Specifications for Airplanes, by A. Black, Vol. VI., July 1, 1919, p. 592.

Civil Aerial Transport

Use of Aircraft in Saving Life and Property at Sea, by Capt. B. M. Chiswell, Vol. II., Mar. 1, 1917, p. 144.

World's Aerial Routes and Thier Regulation, by Lieut.-Col. Lord Montagu of Beaulieu, Vol. III., Aug. 15, p. 108, and Sept. 1, 1917, p. 172.

Future of Commercial Aeronautics, by Lieut.-Col. Mervyn O'Gorman, Vol. III., Nov. 1, 1917, p. 464.

Aerial Transport and Travel, Lieut.-Col. Mervyn O'Gorman, Vol. IV., Feb. 1, 1918, p. 29.

Bids on Five Postal Airplanes, Vol. IV., Feb. 15, 1918, p. 99.

Italy's Plans for Postal Airplane Routes, Vol. IV., Feb. 15, 1918, p. 100.

Transatlantic Flight by Airplane, by F. G. Ericson, Vol. V., Sept. 15, 1918, p. 223.

Economics of Aerial Transport, Vol. V., Nov. 15, 1918, p. 489.

Future of Civil Flying, by O. Wright, Vol. V., Jan. 1, 1919, p. 676.

Air Transport and the Aircraft Industry, Vol. V., Jan. 1, 1919, p. 682.

Problems of Commercial Aeronautics, Vol. V., Jan. 1, 1919, p. 694.

British Civil Aerial Transport Committee, Vol. V., Jan. 1, 1919, p. 700.

Use of Airplanes in Forest Patrol Work, by H. S. Graves, Vol. V., Jan. 15, 1919, p. 754.

World's Aerial Mail and Passenger Services, Vol. V., Jan. 15, 1919, p. 755.

Commercial Transport by Airplane, Vol. VI., Feb. 1, 1919, p. 31.

The Airship for Commercial Purposes, by E. M. Maitland, Vol. VI., Feb. 1, 1919, p. 27.

Organization of Aerial Ports, by G. Bastogi, Vol. VI., Feb. 1, 1919, p. 35.

Winds and the Transatlantic Flight, by F. T. Tucker, Vol. VI., Feb. 15, 1919, p. 85.

Preparations for the Transatlantic Flight, Vol. VI., Apr. 1, 1919, p. 284.

Transatlantic Flight and Meteorology, by W. R. Gregg, Vol. VI., May 1 and 15, 1919, pp. 370 and 422.

Naval Transatlantic Flight Expedition, Vol. VI., May 15, 1919, p. 420.

Bids and Specifications of Mailplanes, Vol. VI., July 1, 1919, p. 576.

Miscellaneous

Aviation and Aerography, by A. McAdie, Vol. I., Aug. 15, 1916, p. 8.

Nomenclature for Aeronautics, Vol. I., Nov. 1, 1916, p. 215.

Cross-Licensing Agreement, Vol. I., Jan. 1, 1917, p. 357.

Effects of Altitude on Aviators, by Y. Henderson, Vol. II., Mar. 1, 1917, p. 145.

Some Physiological Aspects of Aeronautics, by H. E. Burtt, Vol. II., Apr. 1, 1917, p. 218.

The Safe and Useful Airplane, by O. Wright, Vol. II., Apr. 1, 1917.

Two Hundred Books on Aeronautics, by E. N. Fales, Vol. II., May 1, 1917, p. 306.

Military Airplane Photography, by A. Brock, Vol. II., May 15, 1917, p. 347.

Gasoline, by A. H. Gill, Vol. II., June 1, 1917, p. 402.

Observations on Physical Effects of Flying, by H. L. Schurmeier, Vol. II., June 15, 1917, p. 445.

Psychological Aspects of Aeronautics, by H. E. Burtt, Vol. II., July 15, 1917, p. 562.

N. P. L. Report, 1916-17, Vol. III., Aug. 1, 1917, p. 40.

Fog Conditions, by G. I. Taylor, Vol. III., Oct. 1, 1917, p. 311.

N. A. C. A. Report, 1916-17, Vol. III., Jan. 1, 1918, p. 765.

Metric System, by V. P. Benedict, Vol. III., Jan. 15, 1918, p. 828.

Medical Aspects of Airplane Accidents, Vol. IV., Mar. 15, 1918, p. 232.

An American Pioneer of Soaring Flight: J. J. Montgomery, Vol. IV., Apr. 1, 1918, p. 302.

Synthetic Gasoline, Vol. V., Oct. 1, 1918, p. 304.

British Advisory Committee Report, 1917-18, Vol. V., Oct. 15, 1918, p. 368.

Examination of Aviators, Vol. V., Nov. 15, 1918, p. 490.

N. P. L. Report, 1917-18, Vol. V., Nov. 15, 1918, p. 498.

Future of Airplane Photography, by A. Brock and L. J. R. Holst, Vol. V., Jan. 1, 1919, p. 705.

Liberty Aeronautic Fuel, Vol. V., Jan. 15, 1919, p. 748.

N. A. C. A. Report, 1917-18, Vol. V., Jan. 15, 1919, p. 750.

Topographic Surveying by Aerial Photography, by A. Brock and L. J. R. Holst, Vol. VI., Feb. 15, 1919, p. 75.

Nomenclature for Aeronautics, Vol. VI., June 15, 1919, p. 529.
